## 2020 Pan Pacific Conference on Pulp and Paper Technology

7 October 2020, University of Tsukuba, Ibaraki, Japan  
8-9 October 2020, Sonic City, Saitama, Japan

Dear all,

The managing board of JAPAN TAPPI would like to cordially invite you to the 2020 Pan Pacific Pulp and Paper Conference which will take place from Wednesday October 7th until Friday October 9th, 2020 in Japan. The conference is a collaboration with JAPAN TAPPI and University of Tsukuba and is jointly held with JAPAN TAPPI Annual Meeting and Exhibition.

Historically, the Japan-Canada Pulp and Paper Technology Conference started in 1976 and attracted world-wide attention in 1985 by highlighting advances in twin-wire formers that used to be the cutting-edge technology at the time.

When Australia and New Zealand became the member in 1988, the conference was renamed as the Pan Pacific Conference on Pulp and Paper Technology and has been organized biannually since then by the member of the Technical Associations of the Pulp and Paper Industry in Pacific Rim countries (Table 1). USA joined in 1992. Japan was supposed to host the 2012 conference, but the opportunity was offered to Indonesia because of the Great East Japan Earthquake.
